DETAILED ACTION

Reasons for Allowance

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance: claim 1 includes the limitation of an anvil that is rotated about an axis of rotation to adjust the amount of energy absorbed by the strap. The rotation selectively positions one of a plurality of bending profiles that are radially spaced around the axis of rotation. A combination of these limitations and the other recited features was not reasonably found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Li, Connor, Li et al., and Manwaring et al. teach energy absorbing collapsible steering columns of interest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ruth Ilan whose telephone number is 571-272-6673. The examiner can normally be reached on Monday-Friday, 8:30-5:00.
